

DIAGNOSING & TREATING OROFACIAL MYOFUNCTIONAL DISORDERS BY LINDA D'ONOFRIO JANUARY 25 – 27, 2024, HOTEL SWISSOTEL TALLINN

COURSE DESCRIPTION: This three-day event is an advanced lecture series and clinical workshop for experienced medical and dental professionals whose scope of practice intersects in the orofacial complex.

25.01.2024. DAY #1. Advanced Lecture

TITLE: "Breaking Down the Diagnostic Process for Orofacial Myofunctional Disorders"

LEARNING OUTCOMES:

1. Define the scope of practice of Orofacial Myofunctional Disorder (OMD) across the lifespan.
2. Differentiate between screening, symptom identification, and diagnosis.
3. Outline and detail the structural, functional, and behavioural areas of an OMD assessment.
4. Differentially diagnose OMD from dysphagia, feeding, articulation, and voice disorder.

26.01.2024. DAY #2. Advanced Lecture

TITLE: "Breaking Down the Treatment Process for Orofacial Myofunctional Disorder"

LEARNING OUTCOMES:

1. Define the scope of practice of OMDs and the special populations treated by OMT.
2. Define considerations for multidisciplinary assessment, including the timing of palate expansion and lingual frenectomy.
3. Differentiate oromyofunctional goals, objectives, and strategies to individualize patient care as it relates to orthodontic cases, oromaxillofacial surgery, and children and adults with obstructive sleep apnea.

27.01.2024. DAY #3. Clinical Workshop. ONLY 20 SEATS

TITLE: "Coordinating Orthodontics, Oral Surgery, OSA & Oromyofunctional Therapy"

LEARNING OUTCOMES:

1. Explain the difference between oromyofunctional goals, objectives, and strategies and how to plan, prioritize, and coordinate treatment.
2. Discuss, apply, and practice oromyofunctional exercises and techniques.
3. Integrate oromyofunctional therapy (OMT) into current caseloads.

LECTOR: Linda D'Onofrio, MS, CCC-SLP

WHEN: 25.01.2024.- 27.01.2024.

LANGUAGE: English

CATERING: Full (Lunch + Tea breaks)

AUDIENCE: Experienced medical professionals (e.g., dentist, SLP, nurses, physiotherapist)
